10 January 1957

Honorable Carl Hayden
Chairman, Joint Committee on Printing
United States Senate
Washington 25, D. C.

Dear Senator Hayden:

Your letter of 10 September 1956 to all departments and agencies requests information regarding the use of certain equipment capable of making photographic offset plates and masters.

A survey has been conducted in this Agency which revealed that no equipment capable of making offset plates and masters and stencils or spirit masters is in use in conjunction with duplicating and related equipment outside authorized printing plants. Consequently, the requested forms have not been completed.

I trust this information will be of assistance in the Committee's further study of this type of duplicating equipment.

Sincerely,

/s/

L. E. White
Deputy Director
